

THAT OTHER 'BETTY' IS BACK

Betty White is back where she belongs.

No, not on Golden Girls, but out to sea.

Betty White is a loggerhead sea turtle who was a patient at Loggerhead Marinelife Center since December.

The first week of June, the, now healthy turtle was allowed back to her natural habitat.

Hundreds of folks gathered to cheer on the then-local icon.

Habitat

More information about the Loggerhead Marinelife Center can be found at www.marinelife.org
