

TIME TO 'DIM OUT' FOR NESTING ...

We are right in the middle of sea turtle nesting season.

Be aware that it is illegal to disturb the threatened and endangered sea turtles and their nests.

As well, lights on homes that border the beaches must be dimmed or have closed blinds – as the light can disorient turtle moms and their babies after they hatch.

Hatchlings who have lost their way or seem disoriented or feeble can be brought to Loggerhead Marine Center, 24 hours a day, located at 14200 U.S. 1 in Juno Beach.

“I think it’s great that the area cares so much about these majestic creatures,” Henry McDonald of Jupiter said.
